

ABOUT

Adam Commercial exists to exclusively broker and develop commercial real estate and provide real estate consultation and representation services for businesses and investors.

The principles of our focus are:

Convert Vision to Create Value

We understand how to facilitate a discovery process and create opportunity in real estate and how the appropriate design, financing and management will maximize cash flow and provide long term value.

User Driven for Purposeful Design

We believe real estate should have an efficient design, support the business goals of the occupant and provide a sound investment with a clear entry and exit strategy for the ownership.

Plan Culture to Deliver Experience

We understand the entire business spectrum must be integrated into a real estate business plan and the importance of vision, investment, culture, people, utility, community and environment.

Analyze Variables to Understand Risks

We provide the financial knowledge and guide a succinct process so all variables and risks involved are clearly understood.

Prioritize Action to Maximize Results

We bring clarity to the elements of real estate so everyone can work with focus and the project will deliver the promised impact.

Sustainable Approach for Enduring Return

We bring a balance to the value by maximizing what exists and by providing new alternatives to insure what is acted on has timeless purpose and flexible application.

We look for small to mid-size private organizations with changing needs and the strong desire to create unique work environments. We seek investors with a holistic, long-term view and projects with an opportunity to create something both adaptive and progressive.

Adam Commercial is actively looking for new partnerships in Minnesota and investment opportunities in the Midwest, Southwest and Northwestern areas of the United States.
